Kidcasso Art Studio Drawing, Painting, and Sculpting!

Grades K-3

Kidcasso Art Studio is thrilled to be back in action at Bancroft this fall! Our team of art educators will be offering a 8-week art program that is based in fine arts, sensory based hands-on experiences, creativity and fun! Our students will be engaged in drawing, painting, collage, sculpture and more! Each week our team will introduce the students to a new form of art, artist, and art material to inspire them to create a one-of-a-kind masterpiece! We can't wait to see what the students engaged in our art class imagine, design, and create!

Tangle Art

Do you want to try out the new worldwide trend of Zen Doodling or Tangle Art? Tangle Art uses patterns to create artwork in a way that encourages relaxation and focus. If you search google or youtube you will find thousands of examples of this new trend which has become a very popular way for kids and adults to destress and relax. In this class, you will learn to create line art using simple repetitive shapes, lines, circles and arcs. You will learn a step-by-step method to create various designs which you will combine using your creativity to make up beautiful tangle art motifs. All supplies will be provided.

Code your own game (using Scratch)

Gaming will never be the same again! With this program, kids learn to code by creating their own games and animations! Whether a student has coded before or not, they are able to jump right in and begin their journey through code! Depending on their age and experience, students will work on a block-based coding platform using Scratch or Godot engine, where they will start to learn the basics of game design. Students do not need to have any coding experience. Through this program, young learners not only gain coding skills but also develop basic computer literacy, including opening apps and accessing websites, all while designing and playing their own games. We will start a new project, learn how to add characters and backgrounds, make our own characters move, animate scenes, etc. In each class, the kids will add to their animated story some new skills.

Strong Girls Club

SG United Foundation (“Strong Girls United”) is a 501© (3) nonprofit organization whose mission is to empower girls to be strong, confident and resilient through sports, mentorship, and mental health programming. This program started in Andover in 2017 and is coming back! This program is designed to teach girls how to develop their strong bodies and tap into their kind hearts and unstoppable minds. A different sport/physical activity (i.e. basketball, soccer, volleyball, track, yoga) and different mental skills (i.e. confidence, growth mindset, gratitude, goal setting, etc) will be explored each week. Coaches Jen and Fran will lead this team! Participants will each get a Strong Girls United Shirt and the book, A Strong Girls Guide to Being: Exercises and Inspiration to Become a Braver, Kinder, Healthier You, written by SGU Founder and Director Lani Silversides. Once your Strong Girl is registered through the Sign Up Genius, please use the following link to enter additional information <https://sgunitedfoundation.org/participant-registration>

Music Magic! It's Chime Time!

Come and explore the magic of music! For the past 400 years, ringers in England have been using handbells to create elegant songs, with each person responsible for 1-2 notes at a time. This music lab will teach the basics of ringing handbells and hand chimes in the English handbell tradition while reading music from a staff, all in a fun and nurturing environment. Lab musicians will also work together to write their signature piece, all to be presented in a final performance for family and friends at the last class session. Music reading will be helpful, but is not at all necessary. The instructor, Cathy Meyer, is a certified Orff-Schulwerk educator and has been teaching music to children for over thirty years. Bells, chimes, and gloves will be provided.

Grades	2-5
Total Students	7 (min) - 15 (max)

MAD Mornings

Music, Art, Discovery

Wake up those brain cells! We will start the day with music, then create musical instruments and learn basic rhythms to play along. We will also create art that goes with the music we listened to and discover some interesting facts about the music and the composers who wrote it. And we will talk about how music plays a part in our lives and how we feel about it. (And the best part: students can take this class more than once as the music will change from session to session!)
